|          |                                                      |           |
|----------|------------------------------------------------------|-----------|
| <b>1</b> | <b>What Is Philosophy of Computer Science?</b>       | <b>21</b> |
| 1.1      | Recommended Readings: . . . . .                      | 22        |
| 1.2      | What This Book Is About . . . . .                    | 23        |
| 1.3      | What This Book Is Not About . . . . .                | 24        |
| 1.4      | . . . Further Sources of Information . . . . .       | 26        |
| 1.5      | NOTES FOR NEXT DRAFT . . . . .                       | 29        |
| <b>2</b> | <b>What Is Philosophy?</b>                           | <b>31</b> |
| 2.1      | Recommended Readings: . . . . .                      | 32        |
| 2.2      | Introduction . . . . .                               | 33        |
| 2.3      | A Definition of ‘Philosophy’ . . . . .               | 33        |
| 2.4      | What Is Truth? . . . . .                             | 34        |
| 2.4.1    | The Correspondence Theory of Truth . . . . .         | 35        |
| 2.4.2    | The Coherence Theory of Truth . . . . .              | 35        |
| 2.5      | On Searching for the Truth vs. Finding It? . . . . . | 36        |
| 2.6      | What Is “Rational”? . . . . .                        | 39        |
| 2.6.1    | Logical Rationality . . . . .                        | 39        |
| 2.6.1.1  | Deductive Logic . . . . .                            | 39        |
| 2.6.1.2  | Inductive Logic . . . . .                            | 40        |
| 2.6.1.3  | Abductive Logic . . . . .                            | 40        |
| 2.6.1.4  | Non-Monotonic Logic . . . . .                        | 41        |
| 2.6.2    | Scientific Rationality . . . . .                     | 41        |
| 2.6.3    | Is Science Philosophy? . . . . .                     | 41        |
| 2.6.4    | Could (Should?) Philosophy Be Scientific? . . . . .  | 42        |
| 2.6.5    | Is It Always Rational to Be Rational? . . . . .      | 43        |
| 2.7      | What Is the Import of “Personal Search”? . . . . .   | 43        |
| 2.8      | What Is the Import of “In Any Field”? . . . . .      | 43        |
| 2.9      | NOTES FOR NEXT DRAFT . . . . .                       | 48        |
| 2.10     | Further Sources of Information . . . . .             | 59        |
| <b>3</b> | <b>What Is Computer Science?</b>                     | <b>65</b> |
| 3.1      | Readings: . . . . .                                  | 66        |
| 3.2      | Introduction . . . . .                               | 69        |
| 3.3      | Why Ask What Computer Science Is? . . . . .          | 69        |

|          |                                                           |            |
|----------|-----------------------------------------------------------|------------|
| 3.3.1    | Academic Motivations . . . . .                            | 69         |
| 3.3.1.1  | Academic Politics . . . . .                               | 69         |
| 3.3.1.2  | Naming the Discipline . . . . .                           | 70         |
| 3.3.1.3  | Academic Pedagogy . . . . .                               | 70         |
| 3.3.1.4  | Academic Publicity . . . . .                              | 71         |
| 3.3.2    | Intellectual or Philosophical Purposes . . . . .          | 71         |
| 3.4      | What Does It Mean to Ask What Something Is? . . . . .     | 72         |
| 3.5      | Computer Science Studies Computers . . . . .              | 74         |
| 3.6      | Computer Science Studies Algorithms . . . . .             | 77         |
| 3.7      | Is Computer Science a Science? . . . . .                  | 78         |
| 3.8      | Physical Computers vs. Abstract Algorithms . . . . .      | 80         |
| 3.9      | Computer Science Studies Information . . . . .            | 82         |
| 3.10     | Computer Science Is a Science of Procedures . . . . .     | 83         |
| 3.11     | Computer Science Is <i>Not</i> a Science . . . . .        | 83         |
| 3.12     | Summary . . . . .                                         | 85         |
| 3.13     | NOTES FOR NEXT DRAFT . . . . .                            | 87         |
| 3.14     | Further Sources of Information . . . . .                  | 141        |
| <b>4</b> | <b>What Is Science? . . . . .</b>                         | <b>151</b> |
| 4.1      | Recommended Readings: . . . . .                           | 152        |
| 4.2      | Introduction . . . . .                                    | 154        |
| 4.3      | Early Modern Science . . . . .                            | 155        |
| 4.4      | The Goals of Science . . . . .                            | 156        |
| 4.4.1    | Description as the Goal of Science . . . . .              | 156        |
| 4.4.2    | Explanation as the Goal of Science . . . . .              | 156        |
| 4.5      | Instrumentalism vs. Realism . . . . .                     | 157        |
| 4.6      | “The” Scientific Method . . . . .                         | 158        |
| 4.7      | Alternatives to “The Scientific Method” . . . . .         | 159        |
| 4.7.1    | Falsifiability . . . . .                                  | 160        |
| 4.7.2    | Scientific Revolutions . . . . .                          | 161        |
| 4.8      | Is Computer Science a Science? . . . . .                  | 162        |
| 4.9      | What Kind of Science Might Computer Science Be? . . . . . | 163        |
| 4.10     | NOTES FOR NEXT DRAFT . . . . .                            | 163        |
| 4.11     | Further Sources of Information . . . . .                  | 174        |
| <b>5</b> | <b>What Is Engineering? . . . . .</b>                     | <b>179</b> |
| 5.1      | Recommended Readings: . . . . .                           | 180        |
| 5.2      | Introduction . . . . .                                    | 181        |
| 5.3      | A History of Engineering . . . . .                        | 182        |
| 5.4      | Engineering as Design . . . . .                           | 183        |
| 5.5      | A New Kind of Engineering? . . . . .                      | 184        |
| 5.6      | The Engineering Method . . . . .                          | 185        |
| 5.7      | NOTES FOR NEXT DRAFT . . . . .                            | 185        |
| 5.8      | Further Sources of Information . . . . .                  | 195        |
